

## Product Change Notice: REACH compliance for all Snap-In Aluminum Electrolytic Capacitors

PCN.PG25.05.07.2013

05.07.2013

### About this Notice:

Panasonic is going to make its entire Snap-In Al. Electrolytic lineup REACH compliant. All Snap-In Lytic capacitors are required to follow this REACH standard on or before January 1<sup>st</sup>, 2015.

### Effective Date:

Product produced by Panasonic on and after October 1, 2013.

### Change Details:

The Sleeve material on these capacitors will change from PVC (Polyvinyl chloride) to PET (Polyethylene terephthalate). Please see before and after picture below.

	Current	Future
Sleeve	PVC (Polyvinyl chloride)  (No Indication on sleeve)	PET (Polyethylene terephthalate)  (Indication on sleeve)

Additionally, the Top Plate material will also change from PVC to PPE (Poly-Phenylene Ether). **In terms of appearance, there is no noticeable change on the Top Plate.**

	Current	Future
Top Plate	 With PVC	 With PPE

**Affected Parts:**

Please see attached excel spreadsheet.

**Datasheet(s):**

Please contact authorized Panasonic distributors or the Panasonic sales force for datasheets.

**Notes:**

**There will be no part number change.**
